Invitation to Seminar in Vilnius - 19.10.2006

Ladies and gentlemen,

We would like to invite you for the Microsoft & Intel Embedded seminar, which will take place on Thursday October 19, 2006 in Vilnius. The main topics will cover 32-bit Intel Architecture as a platform for Windows Embedded systems . Intel product portfolio is continuosly changing and the seminar will help to stay updated with the lastest offerings. The flash memory family of products will be presented as a perfect solution for different embedded aplications.

Our engineers will present both versions of Windows Embedded CE and XP and how they fit to Your devices . Windows Embedded CE 6.0 - new version, Windows Embedded for Point of Service and Embedded Servers Products will be presented as well.

Second part of the seminar will have the form of the Hands-on lab with practical excercises where you can see and learn how to use Windows Embedded tools to develope embedded solutions.
